Build 2018 All

Monday, May 14, 2018 16:47

1	#FiveThings About Microsoft Build 2018
2	'NEW SESSION' Object Detection Made Easy - Know what objects show up in your images, and where
3	5 Azure services every developers needs to know about - Build 2018
4	A Developer?s Introduction to Big Data Processing with Azure Databricks - Build 2018
5	Achieving Scale with HoloLens and BIM - Designing for interactions with large construction
6	Adaptive Cards in Bots, Windows, Outlook and your own applications - Build 2018
7	Adaptive cards in Teams
8	AI + IoT - ?building, deploying, and managing you custom AI on the edge - Build 2018
9	AI @ Microsoft, How we do it and how you can too! - Build 2018
10	AI for Earth - Analyzing Global Data with Azure - Build 2018
11	All About DevOps
12	Amazing experiences and how to build them ? from the people building showcases and demos -
13	Amplifying human ingenuity with Microsoft AI - Build 2018
14	Analyze and report on your work using the new VSTS analytics service - Build 2018
15	Analyzing your Win32 applications
16	Angular Today, Angular Tomorrow, Angular Forever
17	App Modernization with Microsoft Azure - Build 2018
18	Architecting and Building Hybrid Cloud Apps for Azure and Azure Stack - Build 2018
19	Authentication in Apps for Microsoft Teams
20	Automate team lifecycles with Microsoft Teams and Graph
21	Automating business processes and approvals with Microsoft Flow - Build 2018
22	Azure DevOps VSTS
23	Azure has your back! Keeping PaaS and Serverless apps responsive and stable - Build 2018
24	Azure IoT Edge - a breakthrough platform and service running cloud intelligence on any device.
25	Azure IoT Platform services - The modern IoT developer toolbox - Build 2018

26	Azure Messaging and event based architecture in the real world - Lessons learned rebuilding
27	Azure Service Bus and Logic Apps for messaging and process automation - Build 2018
28	Azure Service Fabric - The road ahead for microservices? - Build 2018
29	Azure SQL DB Managed Instances - Built to easily modernize application data layer - Build 2018
30	Azure Tips and Tricks - Become more productive with azure in 20 minutes - Build 2018
31	Be more productive with Visual Studio extensibility - Build 2018
32	Best Practices when using Microsoft Graph APIs platform capabilities
33	Best Practices with Azure & Kubernetes
34	Best practices with Microsoft Graph - Making your applications more performant, resilient, and
35	Build a Wordpress app using Azure Database for MySQL service - Build 2018
36	Build a workflow in 10 minutes - Build 2018
37	Build and extend applications for Office 365 with PowerApps and Flow - Build 2018
38	Build anything using VSTS Cloud-hosted Mac, Windows and Linux build agents
39	Build apps that reach millions of Outlook Users - Build 2018
40	Build intelligent applications by infusing knowledge from the web - Build 2018
41	Build Intelligent Apps with the Microsoft Data & AI Platform - Build 2018
42	Build Nodejs APIs using Serverless
43	Build smart productivity apps with Microsoft Graph .Net SDK
44	Build smart productivity apps with Microsoft Graph JavaScript SDK
45	Build smart productivity apps with the Microsoft Graph Java SDK
46	Build the ultimate team hub with Microsoft Teams - Build 2018
47	Build Xamarin solutions with authentication and Microsoft Graph
48	Building a technical talent pipeline - Build 2018
49	Building applications at warehouse scale for HoloLens - Build 2018
50	Building Custom AI Models on Azure using TensorFlow and Keras - Build 2018
51	Building custom container images with VSTS and registering them with Azure Container Registry (ACR)
52	Building event-driven Serverless Apps with Azure Functions and Azure Cosmos DB - Build 2018

53	Building Intelligent Forecasting in your Application - Build 2018
54	Building Mixed reality with the new capabilities in Unity - Build 2018
55	Building mobile apps with Visual Studio and Xamarin - Build 2018
56	Building performant and re-engaging web apps with Service Worker - Build 2018
57	Building Progressive Web Apps for Windows devices - Build 2018
58	Building Resilient Microservices with .NET Core and Azure Container Services (AKS) - Build 2018
59	Building secure cloud apps ? lessons learned from Microsoft?s internal security and software
60	Building Solution Templates and Managed Applications for the Azure Marketplace - Build 2018
61	Building Web API Solutions with Authentication
62	Building Web App Solutions With Authentication
63	Building Windows - how the bits flow from check-in to the fast-ring - Build 2018
64	Capturing actionable feedback from manual testing using VSTS
65	Cognitive Search - AI-Powered Content Augmentation
66	Cognitive Services + Microsoft Graph - Build 2018
67	Cognitive Services - Discover Bing Visual Search & Developer Platform - Build 2018
68	Cognitive Services Labs in action - Project Conversation Learner
69	Cognitive Services Labs in action - Project Personality Chat
70	Common Data Service for Analytics capability in Power BI - Build 2018
71	Connect Anything to Everything - Serverless Routing and Messaging with Event Grid - Build 2018
72	Connect to SharePoint with Microsoft Graph
73	Container DevOps in Azure - Build 2018
74	Continuous Monitoring for DevOps with Azure Application Insights & Log Analytics - Build 2018
75	Courageous Design ? embracing successes and ?failures through iteration. - Build 2018
76	Custom Voice Update - Build 2018
77	Demopalooza - Get started infusing AI into your applications today - Build 2018
78	Designing for Black Friday and other surge events - Build 2018
79	Designing for Everyone - Building great web experiences for any device - Build 2018
80	Designing for Fluent with Adobe XD and other design tools
81	Designing Inclusive Experiences to Maximize Reach and Satisfaction - Build 2018

82	Develop apps using the App Studio for Microsoft Teams
83	Develop Industrial Mixed Reality applications with Unity - Build 2018
84	Develop scalable analytical solutions with Azure Data Factory & Azure SQL Data Warehouse
85	Developing large-scale parallel compute and HPC solutions with Azure Batch - Build 2018
86	Diagnosing and debugging live cloud applications - Build 2018
87	Digital Transformation at Starbucks - Build 2018
88	Distribute your apps to millions of users via AppSource - Build 2018
89	Easily run containers on Azure using Azure Container Instances (ACI) - Build 2018
90	Easy Site Search Solutions with Bing Custom Search API - Build 2018
91	Effective C++ WinRT for UWP and Win32
92	Empowering the quantum revolution with Q# - Build 2018
93	Enabling a CI_CD pipeline for Azure DevOps Projects and VSTS for your existing ASP.NET 4 website
94	Event Grid Unplugged - Using events as the fuel powering your applications - Build 2018
95	Everything You Need to Know About PWAs
96	Excel APIs in Microsoft Graph
97	Excel JavaScript API Update
98	Expediting Contract Negotiation in Icertis Using Microsoft Teams - Build 2018
99	Find Security Flaws with AI using Microsoft Security Risk Detection, VSTS, and Azure
100	Fluent Design - Evolving our Design System - Build 2018
101	Friction Free Onboarding with Azure Monitor to Enable Monitoring Your Apps and Infrastructure
102	From startups to big-business - Using functional programming techniques to transform line of
103	From Zero to Azure with Python and Visual Studio Code - Build 2018
104	Fun ways to Explore ML.NET - Build 2018
105	Get even more out of your beta app distribution pipeline - Build 2018
106	Getting started with Azure DevOps Projects to setup CI_CD pipeline for ASP.NET Core & Containers
107	Getting started with Azure DevOps Projects to setup your CI_CD pipeline for Node.js and Containers

108	Getting started with CI_CD & Azure Container Service (AKS) powered by VSTS
109	Getting started with containers on Azure - Build 2018
110	Getting your development projects in order with the tooling for Agile teams in VSTS
111	Git patterns and anti-patterns for successful developers - Build 2018
112	Gone in 60 Seconds! Deploy Your JavaScript App - Build 2018
113	Govern your Azure environment through Azure Policy - Build 2018
114	Great Tools Make for a Productive Azure Experience
115	Grow your business with custom visuals for Power BI - Build 2018
116	Growing your datasets beyond 1 GB with Power BI Premium - Build 2018
117	High Fidelity Simulations - The Critical Path to Real-World AI
118	How Chevron is developing an agile dev culture as they migrate - Build 2018
119	How Honeywell migrated their smart thermostat application to Service Fabric - Build 2018
120	How Microsoft AI defeated Ms Pacman
121	How to Adopt Modern C++17 into Your C++ Code - Build 2018
122	How to take advantage of scale out graph in Azure Cosmos DB - Build 2018
123	How VSTS can power your process and product documentation needs with markdown powered Wiki
124	How Zoom.ai is building the future of work on Microsoft Teams
125	Human Holograms 101
126	Hyperscale hardware -?ML at scale on top of Azure + FPGA - Build 2018
127	if(dev) { Insider(); } - Build 2018
128	Infrastructure automation at Chevron - deployment and management at scale - Build 2018
129	Introducing ML.NET - Build 2018
130	Introducing the all-new Starbucks Progressive Web App - Build 2018
131	Introducing the Oracle Data Provider for .NET Core - Build 2018
132	Introduction to Load Testing - Find out if your app will survive peak usage using VSTS
133	Intune APIs in Microsoft Graph
134	ISV Showcase - End-to-end Machine Learning using H2O on Azure - Build 2018
135	Language Understanding Updates - Build 2018

136	Learn how to use the Microsoft Graph PHP SDK to build you next integration with Office 365
137	Learn to build you first quantum solution with the Quantum Development Kit and Q# - Build 2018
138	Leverage Azure Blob Storage to build storage intensive cloud native applications - Build 2018
139	Leveraging SharePoint as a development platform for the modern intranet - Build 2018
140	Making production deployments safe and repeatable using declarative infrastructure and Azure
141	Meet the new stack for real-time web communication - ASP.NET Core SignalR - Build 2018
142	Microservices and Serverless with Azure and Visual Studio Code - Build 2018
143	Microsoft AI overview for developers
144	Microsoft Build - Seattle Eats
145	Microsoft Build - Seattle Sights
146	Microsoft Build 2018 - Technology Keynote - Microsoft Azure
147	Microsoft Build 2018 - Vision Keynote - Intelligent Cloud and Intelligent Edge
148	Microsoft Graph - Connect to essential data every app needs - Build 2018
149	Microsoft Graph - Permissions and Consent
150	Microsoft Graph extensibility
151	Microsoft Graph What's New with Webhooks and Delta Query
152	Microsoft Graph Workflows to Automate Azure AD User and Group Management
153	Microsoft IoT Overview, Vision and Roadmap - Build 2018
154	Migrating Existing Open Source Machine Learning to Azure - Build 2018
155	Migrating from TFS to VSTS ? Using the TFS Database Import Service - Build 2018
156	Modernize applications and reduce TCO with Windows containers on Azure Service Fabric? - Build 2018
157	Modernizing Desktop Apps on Windows 10 with .NET Core 3.0 and much more - Build 2018
158	Modernizing Mission-Critical Apps with SQL Server - Build 2018
159	Modernizing Twitter for Windows as a Progressive Web App - Build 2018
160	MSIX - Inside and Out - Build 2018
161	NET Overview & Roadmap - Build 2018
162	Node.js with CI on Azure - Build 2018
163	Notifications, Upstreams, and Retention in VSTS Package Management

164	OneDrive and SharePoint APIs in Microsoft Graph
165	OneNote APIs in Microsoft Graph
166	Operations at big scale - Inside the Microsoft enterprise - Build 2018
167	Outlook APIs in Microsoft Graph
168	Overview of Visual Studio and Unity - Build 2018
169	PaaS and Container Innovation ? What?s new with App Service - Build 2018
170	Past, Present, and Future of .NET
171	Planner APIs in Microsoft Graph
172	Power BI Workspace Collections Migration - Build 2018
173	PowerApps + Microsoft Graph - Build 2018
174	Project Rome APIs in Microsoft Graph
175	QnA Maker - FAQ to Bot in minutes - Build 2018
176	Real-time data streams with Apache Kafka and Spark
177	Real-World Solutions with PowerApps - Performance and optimization tips when building apps
178	Rebuilding for the cloud - Reinventing revenue reporting at Microsoft - Build 2018
179	Secure and manage your Azure resources - Build 2018
180	Securing your data with Azure SQL DB - Build 2018
181	Security APIs in Microsoft Graph
182	Seizing the Mixed Reality Revolution ? A past, present and future Mixed Reality Partner
183	Set up a windows dev environment that feels like $HOME - Build 2018
184	Share code and collaborate on your next project using Git and pull requests hosted by VSTS
185	Sharing Code with VSTS Package Management
186	Smart Insights with Machine Learning from Azure Monitoring - Build 2018
187	Smarter data analysis with JavaScript and Azure ML functions in Excel - Build 2018
188	Spatial Analytics for Mixed Reality - Build 2018
189	Speech services overview - Build 2018
190	Start building mobile apps in 5 minutes with Xamarin Live Player
191	Streaming Big Data in Azure with Kafka and Event Hubs - Build 2018
192	Streamline business processes with Flow and Office 365 - Build 2018
193	Supercharging your workflow with App Center and Azure - Build 2018

194	Taking control over your releases with VSTS Release Management (RM) Release Gates
195	Technical overview of Azure Cosmos DB - Build 2018
196	Technology Keynote - Microsoft 365 - A powerful development platform - Build 2018
197	The Developer Data Scientist ? Creating New Analytics Driven Applications using Apache Spark
198	The Microsoft AI platform - a State of the Union
199	Train your Computer Vision model in the cloud and export it to run anywhere - Build 2018
200	Transform or disrupt your market with Workboard, right in Microsoft Teams - Build 2018
201	Turn good code into a great business - Build 2018
202	Tying it all together ? Modernizing Enterprise Applications - Build 2018
203	Using Node.js to Build for the Enterprise - Build 2018
204	Using Pivotal Cloud Foundry across Azure and Azure Stack - Build 2018
205	Visual Studio Code Can Do That - Tips & Tricks - Build 2018
206	Visual Studio Futures - IntelliCode and Live Share
207	WebVR, not just Holograms in the web but powerful platform
208	What's new for Serverless Computing in Azure - Build 2018
209	What's New for Windows UX Developers - Fluent and XAML - Build 2018
210	What's New in Azure Serverless
211	What's New in TypeScript - Build 2018
212	What's new on Microsoft Graph
213	What's new with Azure Machine Learning - Build 2018
214	What's new with Visual Studio for Mac - Build 2018
215	What?s new with Cortana and the Skills Kit - Build 2018
216	Who Are You The Art of Zero Knowledge User Management - Build 2018
217	Why developers are eating the world! - Build 2018
218	Why Developers Should Care about Infrastructure, an Executive Panel - Build 2018
219	Why Kubernetes on Azure - Build 2018
220	Why you should use F#?(Part 2) - Build 2018
221	Windows 10 on ARM for developers - Build 2018
222	Windows AI Platform and the Intelligent Edge
223	Windows IoT - Accelerate the Intelligent Edge with the Windows AI Platform - Build 2018

224	WIP + Analytics = Successful Apps in your Org - Build 2018
225	Work with files everywhere - Store files, extend user experiences, and build business processes
226	Write, package and distribute apps to your organization with LOB app distribution support in teams
227	Does Your Choice in Programming Language Matter
